# Neck Collar

We offer a range of neck collars, depending upon the type of neck injury you are experiencing or the underlying cause of your neck pain.

Neck collars are a common form of treatment for some neck injuries, surgeries, and pain. Its applications include cervical hernia, strained muscles, osteoarthritis, and muscular spasms.

## Soft Collar (Sponge)

It is designed according to the anatomical neck shape, the sponge is a soft cervical collar. For patients, to avoid excessive neck motion, it allows recalling sensory feedback and keeps warm around the neck.

Sizes

Small	Medium	Large
28 cm	34 cm	40 cm
35 cm	39 cm	45 cm

## Philadelphia Collar

A Philadelphia neck collar is a stiff, latex-free, non-toxic, hypoallergenic, foam collar that supports your neck in the front and behind with rigid plastic. Restricting any movement while healing occurs, is intended to stabilize the cervical spine.

Sizes

Small	Medium	Large
33 cm	38 cm	42 cm
37 cm	42 cm	46 cm

## Cervical Collar with Chin

A cervical collar is used to support the neck. Cervical collars are also used therapeutically, to help stabilize the cervical column and relieve pain. It provides chin support by enhancing immobilization with a chin lock. Hard collars are most commonly prescribed for cervical spine stabilization following either trauma, surgery, or fractures/dislocations.

Sizes

Small	Medium	Large	XL	XXL
32 cm	36 cm	40 cm	43 cm	46 cm
35 cm	39 cm	43 cm	46 cm	50 cm

## Emergency Collar

1.5 mm, plastic made, eva coated inner surface emergency collar is used as a first cervical collar in emergency situations.

**Standard Size**

# Arm-Shoulder Support

## Shoulder Supporter

Made of the highly resilient substance neoprene. Prevents edema by using the compression effect. Reduces muscle tone, which lessens discomfort. Underarm Velcro straps provide comfort and convenience of use.

### Application

- Semi-dislocations
- Tendinitis
- Osteoarthritis
- Used after surgery

### Sizes

Small	Medium	Large	XL	XXL
22 cm	24 cm	27 cm	30cm	34 cm
34 cm	27 cm	30 cm	34 cm	38 cm

## Arm Sling (Lux)

The inner surface is made of towel, the exterior is made of sponge like cloth and the belt provides extra protection and support.

### Application

- Shoulder dislocations
- Postoperative resting
- Preventing fractures of distal edema formation

### Sizes

Small	Medium	Large	XL	XXL
30 cm	33 cm	36 cm	39 cm	42 cm
33 cm	36 cm	39 cm	42 cm	45 cm

## Arm Sling (Mesh)

Inner and outer surface is made up of breathable perforated fabric which allows the air to pass for preventing the sweat and discomfort.

### Application

- Shoulder dislocations
- Postoperative resting
- Preventing fractures of distal edema formation

### Sizes

Small	Medium	Large	XL	XXL
30 cm	33 cm	36 cm	39 cm	42 cm
33 cm	36 cm	39 cm	42 cm	45 cm

## Arm Sling (Simple)

The inner surface is made up of towel like material while the outer surface is made up of sponge like fabric to provide extra comfort.

### Size

Adjustable measurement

# Elbow Support

## Elastical Elbow Support

Made by neoprene material, designed according to anatomy.

### Application

- Protects against trauma
- For heat and compression
- Protects during and after sports activities.

### Sizes

Small	Medium	Large	XL	XXL
22 cm	24 cm	26 cm	28cm	30 cm
24 cm	26 cm	28 cm	30 cm	32 cm

## Padded Elbow Support

Padded Elbow Support is made of neoprene material and is anatomically designed. The elbow part is supported with a specially designed eva material pad, providing more protection.

### Application

- Protects against trauma
- Olecranon bursitis
- Protects during and after sports and physical activities.

### Sizes

Small	Medium	Large	XL	XXL
22 cm	24 cm	26 cm	28cm	30 cm
24 cm	26 cm	28 cm	30 cm	32 cm

## Knitted Epicondylitis Elbow Support

Produced using neoprene materials. The anatomically developed silicon pad tendons' droplets that attach to the muscle groups and compress the lateral epicondyle relieve stress and pain.

### Application

- Epicondylitis lateral
- Increase in the joint fluid
- In cases of elbow pain.

### Sizes

Small	Medium	Large	XL	XXL
22 cm	24 cm	26 cm	28cm	30 cm
24 cm	26 cm	28 cm	30 cm	32 cm

# Hand Splint

Used to protect and support the dislocated or broken bones and joints of the hand. Carpal tunnel syndrome, tendonitis, tenosynovitis, wrist pain, and protection following injury and surgery are the principal applications.

## Hand Wrist Splint (Both sides)

Made from breathable cotton fabric. In order to offer immobilization and support, the anatomically formed wrist support is made of aluminum volar. The wrist stabilization is protected by a bandage on it.

Sizes

Small	Medium	Large	XL
15 cm	19 cm	19 cm	23 cm

## Hand & Wrist Splint (Right-Left)

Provides immobilization and constrains to the movements of the wrist with the help of aluminum rod inside.

Sizes

Small	Medium	Large	XL	XXL
15 cm	17 cm	19 cm	21 cm	23 cm
17 cm	19 cm	21 cm	23 cm	25 cm

# Hand Splint

## Hand Wrist Splint with Thumb Grip (Right-Left)

Made of breathable cotton fabric that has anatomically contoured with aluminum support for restricting the movement of wrist and thumb. The bandage around the ankle is provided stability.

Sizes

Small	Medium	Large	XL	XXL
15 cm	17 cm	19 cm	21 cm	23 cm
17 cm	19 cm	21 cm	23 cm	25 cm

## Neoprene Wrist Splint (Right-Left)

Neoprene Wrist Splint, made of neoprene material. Anatomically shaped aluminum support provides immobilization, shaping natural wrist position. Increases stabilization around the wrist.

Sizes

Small	Medium	Large	XL	XXL
15 cm	17 cm	19 cm	21 cm	23 cm
17 cm	19 cm	21 cm	23 cm	25 cm

## Neoprene Wrist Splint with Thumb Grip (Right-Left)

Is made of neoprene material and has got a anatomically contoured aluminum support to restrict the movement of wrist and thumb. The bandage around the wrist provides stability.

Sizes

Small	Medium	Large	XL	XXL
15 cm	17 cm	19 cm	21 cm	23 cm
17 cm	19 cm	21 cm	23 cm	25 cm

# Finger Splint

The finger is immobilized by the extension of splinter that has unique aluminum coating on its inside surface. Moreover, apply to finger fractures, sprains, and injuries to the tendon and nerve.

**Flat Finger Splint**

**Baseball Splint**

**Frog Splint**

Sizes

Small	Medium	Large
4.5 cm	5 cm	6 cm
5 cm	6 cm	7 cm

# Corset Support

**Woolen  
Corset**

**Woolen  
Corset  
(with Velcro)**

Wool fabric is used in corset support production, providing warmth and compression in the waist area.

Sizes	Small	Medium	Large	XL	XXL
	75 cm	85 cm	95 cm	105 cm	115 cm
	85 cm	95 cm	105 cm	115 cm	125 cm

## Camel Fur Corset

It is constructed with a fabric similar to rabbit fur that is knitted using a unique technique. It can be applied to relieve rheumatic aches as well as to keep the waist, belly, and back warm.

Sizes	Small	Medium	Large	XL	XXL
	75 cm	85 cm	95 cm	105 cm	115 cm
	85 cm	95 cm	105 cm	115 cm	125 cm

# Corset Support

## Dog Fur Corset

It is made with a fabric that resembles dog hair and a special knitting technique. It can be used to keep the back, waist, and belly warm as well as to ease rheumatic pains.

Sizes

Small	Medium	Large	XL	XXL
75 cm	85 cm	95 cm	105 cm	115 cm
85 cm	95 cm	105 cm	115 cm	125 cm

## Abdominal Corset

It is a corset that supports the abdomen and is made of flexible, breathable fabric that prevents sweating.

Sizes

Small	Medium	Large	XL	XXL
75 cm	85 cm	95 cm	105 cm	115 cm
85 cm	95 cm	105 cm	115 cm	125 cm

## Lumbosacral Corset with Belt

(26 cm/32 cm, Black/White)

Produced from breathable fabric that can reduce the load in disc, thanks to its extra cross wise bands.

Sizes

Small	Medium	Large	XL	XXL
75 cm	85 cm	95 cm	105 cm	115 cm
85 cm	95 cm	105 cm	115 cm	125 cm

## Maternity Corset Belt

Composed of cotton fabric, which is elastic and breathable. Maternity Corset Belt can be worn during pregnancy and after delivery. Secure supports is brought to the front part of the belly in the transition of daily activities.

### Sizes

Small	Medium	Large	XL	XXL
75 cm	85 cm	95 cm	105 cm	115 cm
85 cm	95 cm	105 cm	115 cm	125 cm

# Hernia Ties (Double)

Made of supple, stretchable cotton fabric, that intended to push back hernia. It can be utilized before and after surgery to stop recurrence and aid in healing. It provides the ideal support, comfort, and prevention of pain and suffering. It is simple and convenient to utilize in daily life. Can be worn underneath clothing.

Sizes

Left - Right

# Surgical Stocking

After surgery, surgical stockings are used to avoid deep vein thrombosis (DVT), a condition where blood clots form in the leg. Indications include varicosities, lymphedema, venous eczema and ulceration, deep vein thrombosis, and post thrombotic syndrome in the lower extremities due to venous and lymphatic insufficiency.

**CCL-1 Under Knee Surgical Stocking**

**CCL-1 Pregnancy Surgical Stocking**

**CCL-2 Over Knee Surgical Stocking**

# Knee Support

Its perfect for knees that are stiff, weak, or sore. Firm support is provided by a flexible and lightweight construction without limiting mobility. Keeps your knee mobile while assisting in the relief of discomfort and swelling. Additionally, provides safety before, during, and after sports or physical activity. The contour design ensures a perfect fit by preventing bunching and slipping.

**Closed Knee Support**

**Wool Knee Brace**

**Patella Knee Support**

## Sizes

# Visco & Polyurethane

## Visco Snoring Pillow

Elastic Visco is used in its production. It aids in the prevention of snoring. It reduces the headache and dry mouth carried on by snoring. It makes breathing, heavy nighttime perspiration, and restless sleep easier.

## Visco Neck Pillow

The ergonomic design of the Visco Neck Pillow conforms to the curves of your head and neck to maintain proper alignment throughout the night during sleep, preventing pain. Stiffness and pain are lessened by improved body alignment, particularly in the head, neck, and shoulders.

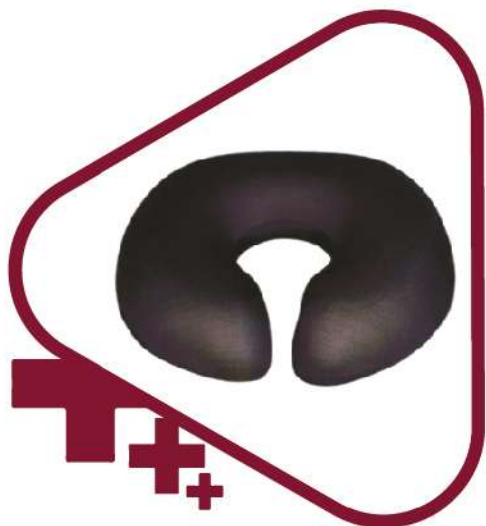

# Visco & Polyurethane

## Lumbar Cushion

This lumbar cushion assists you ease on your office chairs while maintaining the natural S curve of your spine. It also supports your core muscles. It eases stress in the upper, middle, and lower bodies. This chair backrest pillow's perfect construction makes it suitable for usage both at home and in the office.

## Seat Cushion (Open)

The seat cushion has a soft, pleasant feel because it adjusts to the curve of your body. Provides the optimum support for your lower back. Reduces tension and soreness in the lower back caused by prolonged sitting.

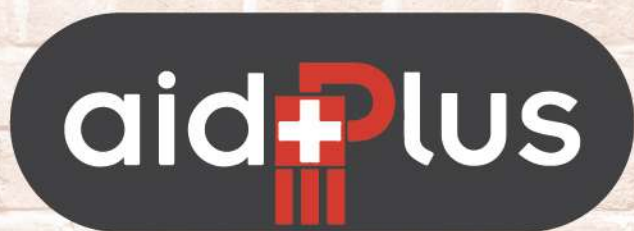

## Travel Pillow

This comfy pillow allows restful sleeps while traveling, making it ideal for those long flight and car travel. The distinctive design is curved for superior neck support, and the incredibly soft flocked surface offers comfort.
